Who We Are

Edge is India's most trusted real estate platform, founded in 2012 by Rohan Mehta and Priya Kapoor with a single belief — buying or renting a home should feel empowering, not exhausting. From a 4-person startup in Bangalore, Edge has grown into a 3,200-employee company operating across 18 cities, with over 2.4 lakh properties listed and 85,000+ families helped since inception.

We are not just a property marketplace. We are a full-stack real estate company — we help people search, visit, finance, negotiate, and register their property all under one roof. Every Edge customer gets a dedicated Relationship Manager from day one.
